

Optional CheXpress Add-ons

SecureLink by Digital Check®

Need to run your scanner in a network environment? Don't buy a new scanner, you can network-enable your scanner with SecureLink by Digital Check. This tiny system-in-a-box can actually operate your scanner in place of a desktop PC, so you just connect your own device and control the scanner using an ordinary web browser. That means SecureLink is virtually operating-system agnostic, and has been tested to work with many Windows, Mac OS X, Linux, iOS and Android devices.

Advisor by Digital Check®

This remote monitoring and management software solution allows organizations to remotely monitor hardware assets so problems can be resolved before customers are impacted. Equipped using the latest in geo-location technologies, Advisor provides real-time intelligent tracking of each scanner deployed. Automatic alerts provide immediate notification in order to prevent fraudulent or unauthorized deposits. Implementing Advisor enables organizations to ensure a positive customer experience while responding to growing internal demands for secure monitoring of deposits across multiple remote channels. Image Enhancement for Difficult Items

Most image quality failures today are generated by a handful of documents that are notoriously difficult to image; Money Orders, security checks, and items with bright backgrounds or busy designs. Digital Check specializes in tackling these problem documents with our advanced image capture technology. Utilizing special document handling techniques, we identify and filter out the background noise to capture what's important.

Experiencing an issue with a particular type of check or money order leading to exception item processing? This is the solution for you. Banks and Credit Unions around the world have reported significant cost savings by minimizing errors and Day-Two research and repair with Digital Check. To learn more about our Special Document Handling™ technology, go to: www.digitalcheck.com/SDH

PRODUCT SPECIFICATIONS

Size

H: 7.47" (18.97 cm) W: 3.92" (9.96 cm) L: 9.38" (23.83 cm)

Weight: 3.95 lbs. (1.8 kg)

Document Handling

Entry Pocket: 1 item at a time

Exit Pocket: 5 items if Pass Through mode is enabled

Document Height: 2.12" - 4.25" (54 - 108 mm)

Image Capture Height: Up to 4.177" (106 mm)

Document Length: 3.19" - 8.98" (81 - 228 mm)

Document Weight: 16 - 28 lb. bond (60 - 105 gsm)

Document Thickness: 0.0032" - 0.0058" (0.081 - 0.147 mm)

Printer Option

Single line inkjet printer with user replaceable cartridge

Franker Option

User replaceable red ink stamp

MICR Recognition

(Magnetic Ink Character Recognition) for E13B (North America) and CMC7 (Europe)

Optical Character Recognition to enhance MICR Read, further enhanced using DCC's Best Read™ API function

Connectivity

Mini-B USB 2.0 cable and power supply included

Camera Specs (Scanning Method)

Concurrent Two-Sided Duplex

Resolution: 300 dpi (850 Pixel Linear Array)

Light Source: Tri-Color LEDs

Optional Front Ultraviolet Camera

Supported Operating Systems

Windows® XP, Windows Vista® (32/64 bit), Windows 7® (32/64 bit),

Windows 8® (32/64 bit), Windows 10® (32/64 bit)

Mac OS (Contact Digital Check Technical Support for specific versions supported)

Linux (Contact Digital Check Technical Support for specific versions supported)

Standard Warranty

1 year warranty

Electrical

Power Consumption: 24 Watts

Input Voltage: 100 to 240 VAC, 50/60 Hz

Separate Standard Power Supply: Auto sensing for voltage

Environmental

Operating Temperature: 60° - 90° F (15° - 32° C)

Operating Humidity: 35 - 85% non-condensing

Certifications

Safety: UL, cUL, CE

FCC: Class B (Industrial, Business or Home)

EMC: IEC CE

Efficiency: CEC V 115V - Power Supply

RoHS Compliant
