Mach® 3

COIN SORTER.

Efficient coin processing.

THE MACH 3 IS A VERSATILE, COST-EFFICIENT, COMPACT COIN SORTER THAT SIMPLIFIES AND SPEEDS COIN PROCESSING FOR ANY BUSINESS THAT COUNTS, SORTS OR PACKAGES COIN.

The MACH 3 is part of Glory's premium family of commercial coin sorters designed for efficiency, accuracy, and reliability in all lower volume coin processing applications. All Mach Series Coin Sorters are based upon Glory's heritage and 80+ year tradition of excellence in the design and manufacture of coin sorting equipment.

Our versatile MACH 3 Coin Sorter features a unique Figure 8 coin sorting mechanism that provides superior throughput with processing speeds up to 1500 coins per minute. Its innovative design offers highly jam-free operation and simple recovery procedures in the event of a jam to further maximize throughput as well as convenience.

Advantage: Glory

Fast and flexible
The MACH 3 sorts and counts coins at 1,500 coins per minute, and can be configured to capture coins in regular or mega coin drawers, coin bags (half Fed size) or pre-formed paper coin rolls . When equipped with an optional printer, receipts can be issued with all coin transactions.

Compact design
The MACH 3 is compact and portable. The base model occupies only about 1 square foot of counter space and weighs-in at less than 17 lbs. It also features a built-in convenient carry handle and an attractive appearance that complements any décor.

Simplicity
Ease of use and simplicity are also design imperatives of the MACH Series. The keypad offers full travel keys and convenient left or right hand access. The backlit display is easy to read, and the operation itself is highly intuitive. It also offers a simplified, intuitive keyboard and control with two levels of totals, batch and grand. If equipped with the coin roll adapter, you can easily switch from coin sorting to coin wrapping with a simple keyboard selection. Tutorial prompting guides the operator through every process using an easy to read LCD display.

Low staff impact
The MACH 3 uses Glory's patented Figure 8 design, which is highly impervious to coin jams resulting from bent or mutilated coins or non-coin debris often mixed in with the coins. In the case of a coin jam, recovery is also simple and fast.

Mach® 3 TECHNICAL INFORMATION

Speed	Up to 1,500 coins per minute
Coin size range	Diameter: 0.61" to 1.28" *(15.5 mm to 32.5 mm)* Thickness: 0.04" to 0.12" *(1.0 mm to 3.0 mm)* Differential: 0.02" *(0.5 mm)* minimum
US Coins Canadian Coins	$0.01, $0.05, $0.10, $0.25, $0.50, $1.00 $0.01, $0.05, $0.10, $0.25, $0.50, $1.00, $2.00
Tilting inspection pan capacity	1,500 coins
Exact bag stops	Standard
Connectivity	RS232 and USB standard
Power supply	90-264V AC, 50/60 Hz
Dimensions	9.25" x 9.00" x 15.4"
Weight	16.8 lbs
Security features	Lock-out security to protect operating information Battery backup in the event of a power failure
Options	Coin drawers, standard and mega Bagging attachements, bagging pedestal Inspection pan magnet kit Printer Soft-sided machine cover/carry bag Tubing kits Batch remote display

Large capacity Mega Coin Drawers

Coin tubing configuration

Table-top bagging configuration
