

NEWKON Perforator Model 10-905

Precision, Security & Reliability

Perforating Machines provide that extra degree of document protection needed in today's world.

A full range of characters, dates, numbers, cancellations, logos & symbols are available for permanently marking documents and for numbering, authentication or security purposes.

Specifications

Dimensions: 9.5" x 13.4" x 10.4"

Shipping Weight: 55 lbs.

Perforating ability: up to 20 sheets, depending on diameter & number of needles & paper thickness

Power: 120V; other voltages available on request

Your best protection for permanent and unalterable marking of documents - perforated holes can't be erased.

Applications include: Dating, Numbering, Cancelling, Receipting, Coding and Validating for Invoices, Documents, Claims, Check, X-Rays, Credit Cards, Badges, Passports, etc.

Fast, convenient & easy to operate. Automatically perforates up to 20 pages per insertion.

Attractively priced; costs less than other comparable electric perforators.

Rugged Construction: made of heavy-duty aluminum alloy die casting. Completely enclosed gears and motor bearings are lubricated for life. All steel punches and die plate. Encased in a plastic case for economical pricing and shipping.

Various styles and options available.
